

WORK ZONE SAFETY TIPS

Wear Your Seatbelt: Always be safe in case of a crash.

Expect the Unexpected: Work zones change often. The area you drove through yesterday may look different today.

Pay Attention to Other Drivers: Narrowed traffic patterns provide less ability to maneuver around other vehicles safely. Paying attention can prevent the need for evasive actions in work zones.

Obey Road Crews and Signs: Flaggers know how best to move traffic safely in work zones. The warning signs are there to help you and other drivers move safely.

Don't Speed or Tailgate: Keep a safe distance from the vehicle ahead of you and don't speed. Tailgating and speeding leads to crashes with other vehicles and field workers.
